Mirth Selected to provide HIE services

RHIO to transition HIE Platform to Mirth

The HealtheConnections RHIO of Central New York (HeC) has selected Mirth Corporation of Irvine, California to provide HIE software and support services. This change was endorsed by the HealtheConnections Board of Directors in October

need to be re-directed to Mirth and validated by HealtheConnections integration staff.

With Mirth, HealtheConnections' HIE will have a new interface for accessing consolidated

participants and patients. It provides a flexible and scalable solution that will provide not only current functionality and data to our users, but also a platform for needed functionality.

This change is very positive for the region and builds upon the trust and support of existing participants and patients.

2012. The migration and implementation of Mirth was launched in December 2012 with a planned completion date of Mid-May 2013. All existing HIE data feeds with connected sources will be re-directed to the Mirth HIE and all existing patient data in the current HIE will be migrated to Mirth. The existing data feeds from our connected data sources and providers will not require any change, but will

patient records. The HeC Provider Engagement Team will be scheduling communication and planning sessions with participants. This change will require user access re-authorization and training for the new interface.

This change is very positive for the region and builds upon the trust and support of existing

What This Means To HeC Participants

- **User access re-authorization**
- **User interface training for accessing patient records**
- **Changes in manual consent management**

To learn more about these changes, be sure to call into one of the 30 minute General Information Sessions to be held the last week of February

We have developed an [FAQ](#) that will address many questions regarding this important change. It outlines the rationale for the change, the scope of the change and the plans for the migration to the Mirth platform. As we move forward with the Mirth implementation, we will continue to share new information with our participants.

General Information Sessions

Daily Conference Call*
