

COVID-19 Positive Patient Hospitalizations Report

This report is designed to support local health departments as they track and trace individual cases of COVID-19.

1: Go to HealthConnections.org and click on “myConnections Login” to enter your user name and password, then click “Log in”.

2: Once in myConnections, click on “COVID-19 (+) Patient Hospitalization”.

The Information in this report shows:

- Positive COVID-19 test results that has resulted in a hospitalization for patients with zip codes within your county.
- Hospitalizations that happened 7 days before or after a positive test result comes back.
- Patient demographic information includes full name, DOB, address, ethnicity, and gender.
