

Pharmacies

As a pharmacist, connecting to HealthConnections can provide crucial information when it's needed most - at the point of care. Here are a few examples of how your organization can benefit:

Need to exchange Protected Health Information with another organization?

Use our HIPAA-compliant communication service, Direct Mail, to send messages directly to another participating provider.

Patient comes in to pick up their prescription after hospital discharge?

Patient Lookup lets you download medications, problem lists, and more from participating hospitals.

Unfamiliar patient comes in with complicated medical history?

With Query-Based Exchange, you'll receive clinical data from other providers across New York State, including federal systems like Veterans Administration and the Department of Defense.

How Can HealthConnections Help You?

Patient Lookup

Consolidated patient information from hundreds of data sources create a comprehensive clinical record, available at the touch of a button. Medications, allergies, medical history, labs, and more!

Query-Based Exchange

Connect to other state and federal partners including other regional HIEs, the Veterans Administration, the Department of Defense, the New York State Immunization Information System, and more.

myAlerts

Receive clinical notifications customized to your preferences in-region and across New York State. Filter and subscribe to alerts by patient, hospital, or consent, and receive by secure Direct Mail in real-time, daily digest, or even by SMS text message.

Direct Mail

Secure, HIPAA-compliant communication for fast and easy care coordination. The intuitive system allows for live chat, sending and receiving attachments, and contains a national provider directory to connect you to referral partners.
