

Health Information Exchange

With the health information exchange, you're instantly connected to other providers across New York State—without faxing, without waiting—which leads to better coordinated care.

Improved Clinician Experience

Improved Quality of Care

Improved Patient Experience

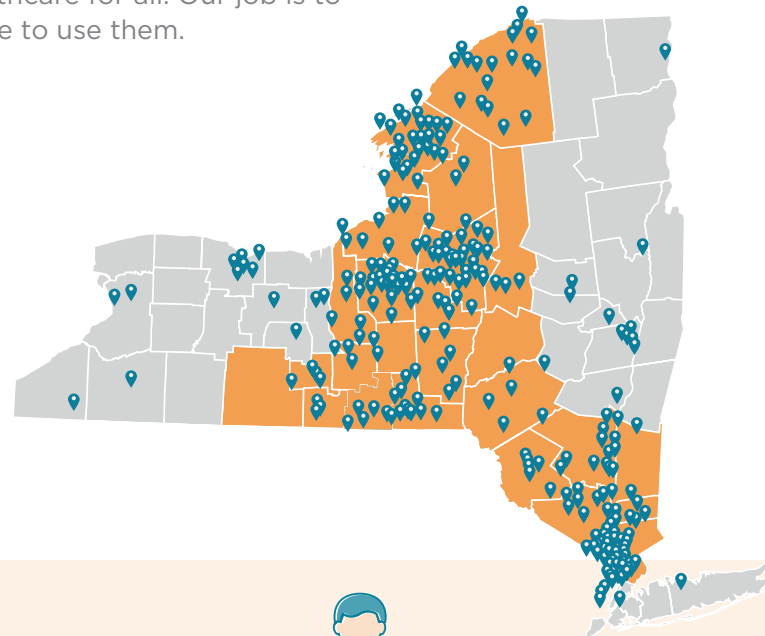

Lower Cost of Care

Health Information Exchange (HIE) is the secure flow of patient data among healthcare providers. With a patient's consent, their care team can easily access their electronic medical records including histories, labs, images, reports, diagnostic tests, visit notes, and other vital information necessary to provide the highest quality care. This level of interoperability is crucial for optimal care coordination, and with HealtheConnections' services, secure exchange of information is smoother than ever before.

We're a not-for-profit entity, and we truly believe that you have a right to free services that will help you meet our shared vision of improved healthcare for all. Our job is to make sure you have the tools you need, and the knowledge to use them.

Thousands of providers are benefitting from the HIE - we think it's time that you do, too.

Call us at 315-671-2241 x5 to get started.

HEALTHCARE PROVIDERS

HealthConnections offers a core suite of health information exchange services to help you improve the quality of care your organization can provide. Best of all, there's no cost to you.

Patient Lookup

Consolidated patient information from hundreds of data sources create a comprehensive clinical record, available at the touch of a button. Medications, allergies, medical history, labs, and more!

Results Access & Delivery

View results directly in the HealthConnections portal or delivered into your own system for easy access. Cut down on waiting for faxes or phone calls - no need for a lab interface or electronic health record system.

myAlerts

Receive clinical notifications customized to your preferences in-region and across New York State. Filter and subscribe to alerts by patient, hospital, or consent, and receive by secure Direct Mail in real-time, daily digest, or even by SMS text message.

Image Exchange

Eliminate reliance on the patient to bring in their disc. View diagnostic-quality images easily and efficiently for comparative studies directly in the provider portal, or have them delivered through Transfer-to-PACS into your own PACS.

Direct Mail

Secure, HIPAA-compliant communication for fast and easy care coordination. The intuitive system allows for live chat, sending and receiving attachments, and contains a national provider directory to connect you to referral partners.

Query-Based Exchange

Connect to other state and federal partners including other regional HIEs, the Veterans Administration, the Department of Defense, the New York State Immunization Information System, and more.

Community Referrals

Currently offered in select counties. Connect your patient with the evidence-based community program that is right for them with only a few clicks, including those for pre-diabetes, diabetes, chronic disease, and hypertension. Choose the program, make the referral, and hear back on progress through our secure Direct Mail.
