Real-time, community-wide health record at the touch of a button.

Patient Lookup

HealtheConnections consolidates patient information from organizations throughout 26 counties in New York State to create comprehensive medical records in one, convenient place. The health information exchange is web-based, so your practice does not need to have an electronic health record system to access records.

✓ **Stop making repeated calls to track down records**

✓ **Community data means the most complete medical records**

✓ **Get the specific information you're looking for – no more, no less**

✓ **No special equipment or systems needed**
