myData Tools: Hypertension Dashboard

With data from the Health Information Exchange, you can receive actionable and valuable insights on your patients with uncontrolled and undiagnosed hypertension.

myData is an innovative application that allows users to easily access and understand their patient profiles, identify gaps in care, and see how they rank in quality measures.

What's included in this dashboard?

Review your patient's list using AHA/ACC guideline to identify patients with hypertension, including:

Diagnosed Hypertension

+ At least one hypertension diagnosis code on file
+ No code on file for excluded diagnosis (ESRD, Pregnancy)
+ Normal: Systolic < 120 and Diastolic < 80
+ Elevated: Systolic 120 - 129 and Diastolic < 80
+ Stage 1: Systolic 130 - 139 or Diastolic 80 - 89
+ Stage 2: Systolic >= 140 or Diastolic >= 90
+ Hypertensive Crisis: Systolic > 180 or Diastolic > 120

Undiagnosed Hypertension

+ No hypertension diagnosis code on file
+ Multiple elevated BP occurrences in the last 2 years
+ Latest BP stage 1 (w/diabetes diagnosis), stage 2, or hypertensive crisis

At-Risk

+ No hypertension diagnosis code on file
+ Multiple elevated BP occurrences in the last 2 years

What can you do with this information?

Filter and review patient lists

Manage your patients using filters that provide:

+ Hypertension diagnosis
+ HTN Stage
+ BP Measured in the last year or 2 years
+ Race
+ Age Range
+ Gender

How can this product improve your patient care?

Help meet standards of care by:

+ Creating a list of patients with stage 2 hypertension to review and manage their care
+ Making a list of patients with a diagnosis of hypertension who have not had blood pressure measurements within the last year
+ Creating a list of all patients with undiagnosed hypertension to review and confirm the diagnosis for care management

Refer patients to evidence-based programs

Connect your patient with the evidence-based community program right for them with only a few clicks, such as the YMCA Blood Pressure Self-Monitoring Program using our Community Referrals platform.
