

Patient Consent Values

Yes = Patient has signed the HIE consent form and checked the “I Give Consent” box.

No = Patient has signed the HIE consent form and checked the “I Deny Consent” box. The patient’s records cannot be accessed, even in an emergency situation.

Emergency only = Patient has signed the consent form and checked the “I Deny Consent except in a Medical Emergency”. The patient’s records can only be accessed in an emergency event. *Only those organizations with a licensed clinician will have access to the “Break the Glass” emergency access option.*

No consent selection – a patient’s records will be defaulted to Unknown and either a **Yes** or **No** selection must be indicated
